

Kohs & Company **The Finest in O'scale**

I N C O R P O R A T E D

Coming soon in O scale (2-rail), the Norfolk & Western Y6b, one of the finest engineered steam locomotives ever to operate in the United States. Once again in cooperation with our builder, Sun Jin Models Company and Dalle Electronics, we will produce a limited edition series modeling five variations in exacting detail. As you review the specifications listed below, you will gain a sense of our reverence for this prototype and the extent that we will go to in our engineering to do it justice. Each model will be delivered painted, decorated for the correct variation and ready to operate powered by twin custom wound Pittman ball-bearing equipped motors.
